Specifications for Kevlar Volleyball Net

KEVLAR OUTDOOR VOLLEYBALL NET

MODEL NO. SNAVB1250K

Totally encased stretcher bars on each side of 32 foot net. Net shall be one meter wide, and squares shall be knotless woven webbing. Net shall have 45' x 1/4" no-stretch Kevlar top rope and 45' braided tenex bottom rope, and white vinyl top, bottom, and side tapes. Four (4) small rope ratchets supply horizontal tensioning of netting. Rope Ratchet Tensioner to supply bottom rope tension is included. May require field shortening of top and/or bottom rope. Meets or exceeds all NCAA, USVBA, and NFHS rules and requirements.
