**Integrated Corrosion Engineering**

Integrated Corrosion Engineering was a proud sponsor at the 21<sup>st</sup> annual Susan G. Komen Rally for the Cure golf tournament on July 25<sup>th</sup>, 2017.

ICE volunteered at the event, helping with setup, manning games, clean up, and a donation to this very important cause. The event was sold out with participants from across the state of Colorado. From survivors to friends and family, everyone brought a positive attitude and an eagerness to play!

All in attendance were there for one common goal, to raise money for this destructive disease.

The funds raised were given to Colorado's Susan G. Komen CEO Dianne Primavera. Distribution will be spread from appointment transportation to assistance with medical costs. Seventy-five percent will go directly to patients. The rest will be used for cancer research across the United States and for the education and advocacy of breast cancer.

With a balloon send off to begin the day and an award ceremony to close out the fundraiser, Integrated Corrosion Engineering was honored to be a part of this event.
