

TC44 CARRYING CASE FOR TELEWAVE WATTMETERS

The Telewave TC44 Carrying Case is custom made specifically for the Telewave Model 44A/AP and Model 44L1/L1P wattmeters. The TC44 features rugged leather construction for years of use, with oversize rivets at all joints, and a large hand strap. The case also provides room for the operation manual and has a special compartment at the bottom for storing loads, test cables, or other accessories.
