

TC44

Carrying Case For Telewave Wattmeters

The Telewave TC44 Carrying Case is custom made specifically for the Telewave 44 Series wattmeters. It will accommodate the 44A/AP, the 44L1/L1P, and the new 44D.

The TC44 features rugged leather construction, with oversize rivets at all joints and a large hand strap. The case also has a compartment at the bottom/rear for storing loads, test cables, or other accessories.
