**1. Update on Temporary Relocation of East River Crew by Wesley Hamilton, NYC Parks & Recreation**

Wes met with East River Crew and looked at two locations in the E. 90s for a possible move and discussed what was needed for each site and obstacles to overcome. Each site has its own unique features and challenges. Each site will take a different amount of work. They are looking at sites as close to 96<sup>th</sup> Street as possible. Wes will work on this and we hope it will be resolved as soon as possible. Follow up will be next month's agenda.

**2. Update on Friends of Ruppert Park by Adrian Padron, President**

- FriendsOfRuppertPark.com is the way to reach the new group and keep up with events.
- May 18<sup>th</sup> will be "It's My Park Day" and they will be doing a cleanup.
- They are looking at events such as the possibility of a green market or art installations. Long- and short-term projects are being planned.
- They have met with and will continue to work with the Muslim Volunteers on their various programs so that they can schedule coordinated events for the year.

### 3. **Update on East River Esplanade by Rockefeller University from 64<sup>th</sup> to 68<sup>th</sup> Streets**

- On Wednesday, April 24<sup>th</sup>, the Rockefeller University cut the ribbon on a public/private partnership that repaired and refurbished a crumbling seawall and dilapidated stretch of the East River Esplanade. The cooperative relationship to improve the East River Esplanade emerged in early 2014 with Council Member Ben Kallos and Mayor Bill de Blasio during conversations around city approval for Rockefeller's \$500 million laboratory building, a construction project that is adding 160,000 square feet of modern, modular lab space to replace aging facilities. The University spent approximately \$15 million on seawall repairs and esplanade improvements, and committed to maintain the landscaping of this section of the esplanade in perpetuity. At the request of Council Member Ben Kallos, the investment by Rockefeller University was then matched by Mayor de Blasio with an initial \$35 million-dollar investment in 2014.

### 4. **Esplanade Discussion with Wes Hamilton**

- a. Sink holes with benches caving in at 114<sup>th</sup> Street and further up that are closed off and EDC is doing a survey and reporting to Parks. There is some funding but no start date yet.
  - b. Get a report on what the EDC survey says about our area.
  - c. Dog poop is a problem. Possibility of getting bag dispensers for poop periodically along esplanade.
  - d. Does Friends of East River Esplanade 96<sup>th</sup> Street Bulletin Board have a posting to put up a flyer to clean up after your dog?
  - e. Signage along the Esplanade about cleaning up after your dog. Parks has a sign committee working on these issues.
5. **Discussion of the NY State Assembly Bill A3264 that will provide important protection for parks and other open space by codifying case law regarding the alienation of municipal parkland.**
- a. MAS has asked for our support. (See attached Assembly Bill)
  - b. Under the new bill, parks will be protected by ensuring that the taking of parkland requires a replacement with parkland of equal or greater value.
  - c. The identical bill (Senate S180) was just passed by the NYS Senate.
  - d. This bill defines what municipal parkland is and that is helpful. It also defines what alienation by the municipality is and that is also helpful.
